

We are delighted to announce that HR Flashdance and her two jack foals, Dogwood Hills Shadow Dancer, and JOY's FlashBlack have at last been released from quarantine surveillance. They arrived in Australia in September 09! I now have Flashdance and FlashBlack running with JOY's Star of Hope and her gorgeous jack foal Stargazer, so the two boys can play together. I plan to breed Flashdance and Hope to Conrad's In Black n White once the weather gets a bit warmer.
